

**Top 2010 Arts, Arts Education, and Cultural Legislative Platform**

*Arts and Culture — part of the solution . . .*

*88,326 full-time jobs*

*\$3.1 billion in local economic activity*

*delivers \$446.5 million in local and state government revenue*

*"Arts & Economic Prosperity III provides compelling new evidence that nonprofit arts and culture are a significant industry in the State of Florida..*

*This economic impact study sends a strong signal that when we support the arts, we not only enhance our quality of life, but we also invest in the State of Florida's economic well-being."*

**Americans for the Arts Florida Economic Impact Study**

*" . . .policy makers would be prudent to continue to invest grant dollars towards Arts, Culture, and Historic resources as a way to help rebuild and sustain Florida's economy and give our state the competitive edge to attract, sustain, and advance tourism, commerce, a skilled and creative workforce, jobs, downtown and neighborhood revitalization, health and wellness, key business relocation, and substantial returns on state investment."*

**Associated Industries of Florida's Economic Stimulus Package 2.0**

**1 Our top priority is for the State of Florida to begin to restore its investment in the Department of State grant line items for arts, cultural, historical, and humanities resources -- proven catalysts for economic diversification and development.**

State investment in these resources should be a vital component of a comprehensive economic stimulus package to help build Florida's innovative economy, encourage business relocation, retain businesses, expand tourism, sustain and increase jobs, improve student achievement and graduation rates, decrease crime, strengthen health and wellness, revitalize downtowns and neighborhoods, and enhance image and quality of life in Florida.

We respect the challenges our State faces and know we, too, must share in cuts. The amounts we request restored as stated below **already represent an 81% cut** from what the Florida Legislature appropriated for arts and cultural statewide grant line items in FY 2006-2007. Please begin to restore Florida's investment in the following grant line items to FY 2008-2009 funding levels with no additional cuts in FY 2010-2011. Thank you.

**Grant-Program Line Items — long-established Division of Cultural Affairs' line items were consolidated into the following grant line items in 2009: For the Division of Cultural Affairs (DCA) statewide grants:**

Cultural and Museum Grants	\$4,851,800
Specific Cultural Project Grants	800,000
State Touring Program and Fellowships	300,000
Approval of Federal Block Grant	297,200

**Partial Restoration Request for DCA: \$6,249,000**

**Partial Restoration Request for the Florida Humanities Council: \$ 288,000**

**Division of Historical Resources (DHR): For the Division of Historical Resources (DHR) statewide grants:**

Historic Preservation Grants Program	\$575,991
Approval of Federal Block Grant	85,870

**Partial Restoration Request for DHR: \$661,861**

**Partial Restoration Request for FY 2010-2011 for Cultural & Historical Grants: \$7,198,861**

**2 We also encourage further economic-and-job development by investing State funds in pre-approved lists submitted by the Florida Department of State for cultural and historical capital projects and cultural endowment matches.**

Cultural Facilities Projects (26 projects)	\$10,610,614
Historical Special Category Projects (39 projects)	\$ 9,968,537
Cultural Endowment State Matches (29 qualified matches from 2002 to 2009)	\$ 6,960,000

**Other legislative issues — see page 2.**

**For additional information on these legislative issues, please e-mail the Florida Cultural Alliance at [info@flca.net](mailto:info@flca.net) or call 561-848-6231. [www.FLCA.net](http://www.FLCA.net)**

*Arts and Culture — part of the solution . . .*

*" Given the important role that creative class amenities play in supporting business development across all industries — especially the emerging creative industries — economic development planning efforts must recognize the role and value of cultural organization and assets.*

*Florida's state and local leaders must persist in their efforts to maintain vibrant and safe communities, local character, and arts, culture, and natural amenities to ensure their global competitiveness.*

*Strengthen the integration of cultural organizations and assets into economic development planning."*

**Enterprise Florida's Roadmap to Florida's Future 2010-2015 Strategic Plan for Economic Development**

*"World-class scientists demand the best in cultural, educational and recreational offerings when they're deciding where to do their research."*

**Dr. Richard A. Lerner, President Scripps Research Institute**

*"74.9% of Florida visitors participate in cultural activities... It is important to understand the factors making Florida an attractive destination and to retain and enhance those factors."*

**Florida Tax Watch Tourism Research Report**

*Arts and Culture — part of the solution . . .*

*"A new study of the Florida 2007-2008 12<sup>th</sup> Grade Cohort, consisting of 188,859 students, illustrates a powerful correlation between participation in fine arts courses, higher academic success in the classroom, and higher scores on the FCAT. This Florida Department of Education data, analyzed by a researcher at Florida State University, shows that student indicators of success increase for students in direct correlation to the number of years in which a student is enrolled in school dance, music, theatre, and visual art courses."*

**Dr. Eric J. Smith  
Commissioner of  
Education, Florida  
Department of Education**

*"Students with high levels of arts participation outperform arts-poor students on virtually every measure."*

**U.S. Department  
of Education**

*"Arts education is a money- and time-saving option for states looking to build skills, increase academic success, heighten standardized test scores, and lower the incidence of crime among general and at-risk populations."*

**National Governors  
Association**

**Support the following key legislative issues that impact Florida's arts, arts education, and cultural resources and the citizens and visitors of our state they help educate, enlighten, and entertain.**

**Restore State Funding for Arts, Cultural, and Historical Grants**

Begin to restore Florida's investment in its arts, cultural, humanities, and historical resources through restoration of funding to grant line items for the Divisions of Cultural Affairs and Historical Resources. In the last four years, these vital matching grant line items have been cut by over 92%. State grants awarded have gone from over 600 to just over 100. These are well-established matching-grant programs that do stimulate the economy and help sustain and create jobs throughout Florida.

**Maintain Tax-Exemptions for Not-for-Profits**

Maintain all tax-exemptions for not-for-profit organizations to help them sustain much-needed quality services, programs, and jobs for the citizens and visitors of our State.

**Protect Arts Education for Our Students**

Protect equitable access and time for students to study the performing and visual arts (art, music, theatre, dance). These courses and programs must not receive disproportionate school and district cuts, be severely compromised, or completely eliminated from the curriculum to meet budget shortfalls. Florida Department of Education's own data demonstrate that performing and visual arts education helps improve students' achievements, test scores, graduation rates, critical thinking skills, and workforce and higher education readiness.

- Support the inclusion of bonus points on school grading that accounts for the participation rate of students enrolled in fine arts courses. Florida DOE data substantiate the strong positive effort of arts enrollment on graduation and FCAT scores. Support Senate Bill 0820 and House Bill 0461.
- Continue to fund the annual appropriation for Arts for a Complete Education within the Department of Education budget.
- Support amendments that allow compliance for class-size requirements based on the average class size at each school for each of the grade groupings, and eliminate sanctions that result in the loss of funds to school districts.
- Begin to restore education funding lost in the past three fiscal years and hold school districts harmless from the impact of property tax initiatives through the identification of adequate funding from existing and new revenue sources.

**Preserve Art in State Buildings Program**

Preserve the Art in State Building Program, a well-established program that provides employment for artists and their contracted assistants and helps make our state buildings unique and inspiring places to work and visit.

***Arts and Culture — part of the solution***  
**to many challenges that face Florida — ask us how.**

**For additional information on these legislative issues,  
please e-mail the Florida Cultural Alliance at  
[info@flca.net](mailto:info@flca.net) or call 561-848-6231.**

**[www.FLCA.net](http://www.FLCA.net)**

*Arts and Culture — part of the solution . . .*

*"The statistics don't lie. With nearly 75 percent of visitors to the Sunshine State participating in cultural activities and spending twice as much as local attendees while they visit, it is clear that if we want Florida to remain a premiere tourist destination, we must continue to invest in the arts."*

**Florida U.S. Senator  
George LeMieux**

*"Policy makers across the country are finding that a relatively modest investment in culture frequently pays big dividends. Support for the production, distribution, and infrastructure of the arts is critical to success in tourism, attracting business interests, economic development, and quality of life issues."*

**National Conference  
of State Legislatures**

*"This is a world in which a very high level of preparation in reading, writing, speaking, mathematics, science, literature, history, and the arts will be an indispensable foundation for everything that comes after for most members of the workforce."*

**National Center on  
Education and the  
Economy**
